Summary

Full Stack Software Developer with 3+ years of experience delivering scalable web, mobile, and AI solutions. Skilled in full project lifecycle development, from architecture to deployment. Focused on translating client requirements into high-quality, industry-standard applications.

Technical Skills

- **Programming Languages:** Dart, TypeScript, Python
 - **Mobile Development:** Flutter
 - **Frontend Development:** React.js, Next.js
 - **Backend Development:** Node.js, Flask, RESTful APIs, WebSockets
 - **Databases & Cloud Services:** Firebase, Supabase, MongoDB, PostgreSQL, AWS, Google Cloud Platform (GCP), SQL, Jupyter Notebooks
 - **Development & Collaboration Tools:** Cursor, Figma, Trello, Android Studio, Xcode, VSCode, GitHub, ClickUp
-

Experience

Full Stack Developer | Punch Digital Agency | On-Site, Lagos | Apr 2025 - Present

- Analyze, understand, and work within existing codebases and architectures, ensuring quality improvements and seamless integration.
- Build scalable, maintainable, and performant web applications, supporting diverse client needs across multiple industries.
- Engage in problem-solving and architectural decision-making to meet project goals and drive successful outcomes.

App Development Team Lead | Biscuit Beacon | Remote, USA | Dec 2023 - Dec 2024

- Led and mentored a team of 12 interns, successfully implementing over 10 new features and improving app performance by 30% across iOS, Android and Flutter Web platforms.
- Collaborated closely with the CEO and design lead to ideate, prioritize, and execute new features, utilizing Agile methodologies (Trello) for efficient project management.
- Implemented cost-saving measures on Google Cloud Platform, optimizing resource utilization and reducing cloud expenses by 40%.

App Developer | Suredata Consulting | Remote, Nigeria | Jul 2023 - Dec 2024

- Developed a social networking app connecting clients and service providers for

real-time job posting and discovery on both iOS and Android platforms using Flutter and Supabase.

- Designed intuitive user flows and interfaces, ensuring alignment with client requirements and best practices.
 - Actively sought and incorporated client feedback throughout the development process to enhance user experience and product quality.
-

Projects

- **CoFounderAI:** Founded CoFounderAI, an AI-powered mobile app (Flutter, Firebase, Gemini API) designed to assist entrepreneurs in streamlining idea execution and achieving success.
 - **CocoAI:** Founded CocoAI, an AI-powered social media management app (Flutter, Firebase, Gemini API) that enables users to schedule and create engaging content across various platforms.
 - **Web3 Afrika Hackathon Winner:** Developed a blockchain-powered chess variant utilizing Ethereum stakes and innovative gameplay mechanics (Next.js).
 - **ML/AI Blog:** Launched a public ML/AI blog to document my learning journey through hands-on projects—ranging from binary classification to generative deep learning—focused on mastering core machine learning and neural network architectures.
-

Education

- **B.Sc., Civil Engineering** | University of Lagos | Lagos, Nigeria
 - **MSSE** | Quantic School of Business and Technology | Online (expected: July 2026)
-

Certifications

- **CS50x: Introduction to Computer Science** | Harvard University
- **Data Science for Everyone** | DataCamp
- **AI Security and Risk Management** | DataCamp
- **Monetizing Artificial Intelligence** | DataCamp
